a. Turn on/off the Remote Transmitter and the Training Collar(please refer to brief introduction or How to set the Training Collar to work with a Remote Transmitter)

b. Press the Mode Button to choose V or S mode as your needs.

   For V mode vibration mode, there are 9 intensity levels. Please use UP/Down Button to adjust them.

   For S mode Static Mode, there are 9 intensity levels. Please use UP/Down Button to adjust them.

c. Press Transmitter button Y to send the signal to the Collar Receiver

Operation manual between Remote transmitter and the Remote Beeper

Before use, please make sure you already encode the Remote Transmitter with the Remote Beeper, and also choose the right channel.

d. Turn on/off the Remote Transmitter and the Training Collar(please refer to brief introduction or How to set the Remote Beeper to work with a Remote Transmitter)

e. Press the Mode Button to choose R, T or L mode as your needs, and then press Transmitter button to send the confirmation signal to the Remote Beeper.

   For R mode There are 3 Running Modes. You have three choices of how often the beeper sounds off when your dog is moving.

   1. Silence Mode the Beeper will keep Silence when the dog moves and when it stops, it will beep every 2 seconds

   2. 5 Second Mode The Beeper will beep every 5 seconds when the dog moves and when it stops, it will beep every 2 seconds

   3. 10 Second Mode - The Beeper will beep every 10 seconds when the dog moves and when it stops, it will beep every 2 seconds

   For L Mode The Location Mode will disable the Remote Beeper Functions and at this Mode, you could press the Transmitter button to send the signal to the Remote Beeper and the Remote Beeper will play the beeper sound by which you know where the dog is.

   For T Mode The Tone Mode could adjust to 9 different Tone sounds.

You could change the Remote Beeper to the different tone sound at any time you like. Please press Mode button and change to Tone Mode. Use UP/Down Button to change to the preferred tone sound. Once decided, press Transmitter button Y to send the confirmation signal to the Remote Beeper.

The Remote Beeper will play the selected sound

Mode	Tone
1	1 Beep
2	Whistle
3	Bird
